

## GVI Charitable Trust Schools Program

GVI Charitable Trust projects fund opportunities for people to make a positive impact in their communities, environments and beyond. Our projects support primary, secondary and higher education, specific training and direct experience. We believe that everyone has the potential to create a positive impact and it is by equipping people with knowledge and providing the right opportunities that this will happen.

The individuals we work with come from disadvantaged backgrounds, many of our projects work with communities in developing countries. It is not the fault of a child born into poverty that they cannot earn an education, however as we have seen on our projects, if provided with the right opportunities that child like any other can achieve great things.

By joining this initiative you can choose from a range of critical projects across the world and develop a unique relationship for your school. Raising funds to support your chosen project your efforts will provide disadvantaged individuals with opportunities to change their situation.

### Join the GVI Charitable Trust and we will provide:

- A range of critical projects in 18 countries
- Tailor made service to choose a project most suited to your school
- Individual fundraising target
- Knowledgeable staff to offer fundraising support and ideas
- Fundraising materials
- News and photos from chosen project to demonstrate your impact
- For successful fundraisers we will develop personal relationships, this may include direct contact with project staff or a school visit

### Benefits for students:

Working in a diverse range of environments and geographical locations our programs focus on many important global issues which directly relate to student curriculums.

In addition to providing a dynamic and exciting approach to education the aim of this initiative is to:

- Highlight the importance of education and training
- Raise awareness of global issues
- Develop leadership and team working skills
- Demonstrate students potential to shape their world
- Evoke compassionate and responsible attitudes
